

# Application Instructions

## Reflexite® Allite II Sheeting

*For badges, piping and accessories*

Bulletin #APP-13

---

### GENERAL INFORMATION

**Reflexite® Allite II Sheeting** is a tough weather resistant reflective sheeting which is vinyl based that can be screen- printed.

For more information on Allite II Sheeting, please reference Technical Product Bulletin, which is available from local Reflexite Sales Offices.

### WELDING GUIDELINES -

Welding Allite II Sheeting requires all aspects of sealing to a vinyl backing to be considered, These include but are not limited to,

- Equipment utilized
- Tooling used
- Weld Parameters such as power, time etc
- Vinyl Backing used

Please contact the Reflexite Sales Office for further information.

### PRINTING GUIDELINES

- The surface should be cleaned and allowed to dry (*please ensure area/ areas to printed, have being thoroughly cleaned*). Reflexite recommends isopropyl alcohol or a similar cleaner.
- When cleaning, ensure that the same cleaning cloth or cloth face is not used to clean the entire batch of material, as contamination from the cleaning process may build up on the cloth over time, which may result in the material not being thoroughly cleaned.
- After cleaning, let the material surface dry and print within 24 hours of cleaning

Inks to be used should be suitable for PVC. Reflexite recommends a product known as Polyplast made by Sericol.
